### **DETAILED ACTION**

1. This application is objected to under 37 CFR 1.172(a) as lacking the written consent of all assignees owning an undivided interest in the patent. The consent of the assignee must be in compliance with 37 CFR 1.172. See MPEP § 1410.01.

A proper assent of the assignee in compliance with 37 CFR 1.172 and 3.73 is required in reply to this Office action. Because of the change in assignee, a new consent is needed from the new assignee.

The declaration (or oath) is objected to under 35 U.S.C. 251.

The error(s) recited in the declaration must be recited in terms of what is “wrong” with the patent, and be written to define the error(s) using specific language from the patent. The error(s) must be one that is being corrected at time of allowance. See MPEP 1402 to make sure at least one error is a “reissuable” error. In the current case, the error is insufficiently recited. It is necessary for the applicant to provide what is the error in terms of what is superfluous or lacking in the patent in terms of claim language.

Every material change made by amendment needs a **Supplemental Declaration** with a new “no deceptive intent” clause to cover the latest changes. See MPEP 1410.01.

The declaration (or oath) must identify each inventor by full name, and country of citizenship, and include the correct residence and mailing address for each invention. In the instance application, in the address provided for Eugene Novin, the town appears to be missing for 1098 Boxwood Lane, PA 19422.

2. Claims 1-26 are rejected as being based upon a defective reissue declaration under 35 U.S.C. 251 as set forth above. See 37 CFR 1.175.

The nature of the defects in the declaration are set forth in the discussion above in this Office action.
